

Gunnar- Edward- Olavesen

This camp rocks

I love the Sherwood Forest fair summer camp because; the classes are always different every year. My most favorite class is blacksmithing. The landscape fits perfectly with the time period. My favorite part of the camp is different types of classes during the day I absolutely love this summer camp.

All the councilor and C.I.T.s are cool to hang out with and talk to. I'm impressed that it is not weird I fit in just right. I am really happy to go to Sherwood Forest fair summer camp again this year because it's really fun and if you like to craft and woodwork to its just the place for you. The food is really good, I especially love the brisket, I also love the smoked sausage wraps. I also like to go swimming in the pool. I am really looking forward to going again this year.

The campus has really comfortable shelter like the castle and the pavilions. I like the castle because it has A/C and the pavilions don't. The gemstone mine is my favorite part of the things that you can do during your free time and sometimes before you eat lunch or dinner at the camp. In the mine there are many different types of gemstones there absolutely beautiful, I love the gemstone. I love Sherwood Forest fair summer camp. I love all and every class in the camp. I look forward to going to woodwork, blacksmithing, Leather work, and archery. The reason love Sherwood forest fair so much is because the classes are so fun and inspirational you get to use your imagination.
